Heritage Day  
Pigeon Forge

Dale and Lynn Kennedy are owners in building 2. They hail from Angie, Louisiana. They enjoy spending time with their two children, 5 grandchildren, and one great grandchild. Lynn is COO at Resource Bank. Dale is a maintenance supervisor at International Paper in Bogalusa and serves as treasurer on the High Chalet Board. In their spare time, they like to travel and hike together. Lynn's hobbies are running, couponing, and cheering for the kids at their ballgames. Dale has many interests including photography, making sausage, and woodworking.

Next month, they both plan to make the hike up Mount LeConte with friends.

## Good News from High Chalet

Progress has been made on storm damage, interior damage, and stairwells. Work has been delayed at times due to uncooperative weather and a large number of guests at the complex. We want to welcome all our evacuees from recent storms and wish them the best as they recover and rebuild.

We also want to say welcome our new board member—Mr. Harvey Ryals and are glad to hear that you and Janice made it through Irma in Florida.

A hunter was suddenly confronted by a huge, mean bear. In his fear, all attempts to shoot the bear were unsuccessful. Finally, he turned and ran as fast as he could.

The hunter ran and ran and ran until he came to the edge of a cliff. His hopes were dim.

Seeing no way out of his predicament, and with the bear closing in quickly, the hunter got down on his knees, opened his arms, and exclaimed, "Dear God! Please give this bear some RELIGION!"

The skies darkened and there was lightning in the air. Just a few feet short of the hunter, the bear came to an abrupt stop, and glanced around, somewhat confused.

Suddenly, the bear looked up into the sky and said, "Thank you, God, for the food I'm about to receive...."

## ***Synchronous Fireflies***

***2018 Dates will be announced in early April (They vary from year to year but usually late May or early June.)***

***Synchronous fireflies are one of at least 19 species of fireflies found in the Smoky Mountain National Park. They are the only species in America whose individuals can synchronize their flashing lights as part of the mating process.***

***For more information, visit the Smoky Mountains National Park website.***
